Systems-driven Product Designer (UX/UI) with 3+ years of experience delivering secure, high-fidelity digital products. Leveraging a Computer Engineering background and modern AI workflows (Figma Make, Cursor, Claude Code) to accelerate design-to-code execution. Proven track record of architecting scalable, component-driven design systems and optimizing complex enterprise interfaces for 2M+ active users.

WORK EXPERIENCE

Unitedreams Inc.
Product Designer (UX/UI)

Sep 2024 - Present
Canada

- Architected scalable, mobile-first design systems in Figma, bridging the gap with engineering to accelerate App Store deployment and reduce front-end rework by 20%.
- Designed accessible, privacy-centric user flows compliant with strict App Store and EU data regulations, enabling seamless global market entry.
- Conducted iterative usability testing across the application suite, translating qualitative feedback into data-driven feature enhancements that increased daily active engagement.
- Designed core user flows and interfaces for a suite of iOS utility applications, focusing primarily on Capzy, an AI video captioning tool.

Carrene Corp
Product Designer (UX/UI)

July 2022 - Sept 2024
Iran

- Designed and optimized interfaces for enterprise platforms scaling to over 2M+ active users, balancing complex technical requirements with intuitive UX.
- Architected a unified design system and contributed to a redesigned login process, resulting in a significant reduction in fraudulent login attempts.

SKILLS

Design & Strategy: End-to-End Product Design, UI/UX Strategy, Advanced Prototyping, Component-Driven Design Systems, Information Architecture, Accessibility (WCAG), User Research, Usability Testing.

Tools & Technical: Figma (Auto Layout/Variables), Adobe XD, Agile/Scrum, Engineering Handoff. Leveraging Computer Engineering background for rapid design-to-code execution using Figma Make, Cursor, and Claude Code.

EDUCATION & CERTIFICATIONS

B.S. in Computer Engineering
Google UX Design Professional Certificate (Coursera)

Mazandaran University of Science and Technology
