viola.kazemi@gmail.com | (403) 918-9312 | Toronto, Canada | [Linkedin](#) | [Portfolio](#)

UX/UI Designer with 4+ years of experience designing secure, high-fidelity digital experiences, currently completing the Google UX Design Professional Certificate to sharpen end-to-end product design practice. Background includes designing interfaces for platforms with 2M+ users and contributing to a significant reduction in login fraud. Strong focus on accessibility, design systems, and translating research into clear, usable interfaces.

WORK EXPERIENCE

Unitedreams Inc.

Dec 2022 - Nov 2025

User Experience Designer

Canada

- Applied design thinking to create engaging user experiences, meeting goals, and enhancing satisfaction.
- Designed interactive, responsive web prototypes in Figma to streamline cross-functional handoff, reducing front-end development rework by 20%.
- Conducted usability tests and user research to drive data-driven design decisions and user-centered solutions.

Carrene Corp

July 2018 - Sept 2020

UI/UX Designer

Iran

- Architected and maintained a **unified design system** to ensure component consistency across cross-functional teams.
- Engineered data visualization models to track **KPIs** and support evidence-based design decisions.
- Contributed to a redesigned login process associated with a significant reduction in fraudulent login attempts.

PROFESSIONAL DEVELOPMENT

Google UX Design Professional Certificate

May 2026 - August 2026

- Completing Google's UX Design Certificate, covering the full end-to-end product design process: user research, competitive analysis, wireframing, prototyping, and usability testing.
- Applied coursework to two independent case studies — a museum field-trip planning app and a mechanical keyboard marketplace app — covering research, information architecture, high-fidelity UI design, and accessibility auditing (see portfolio).

SKILLS

Hard Skills: End-to-End Product Design, UI/UX Strategy, Advanced Prototyping, Component-Driven Design Systems, Information Architecture, Accessibility (WCAG compliance), User Research, Usability Testing.

Tools & Collaboration: Figma (Auto Layout & Variables), Framer, Agile/Scrum, Engineering Handoff, Cross-Functional Collaboration, Stakeholder Management, User-Centered Design.

EDUCATION

B.S. in Computer Engineering

Mazandaran University of Science and Technology
