

Viola Kazemi

viola.kazemi@gmail.com | (403) 918-9312 | Toronto, Canada | [LinkedIn](#) | [Portfolio](#)

- Product Designer specializing in end-to-end UX/UI strategy, accessible design systems, and secure digital experiences for large-scale enterprises.
- 5+ years of experience delivering high-fidelity, accessibility-compliant products for banking and enterprise platforms serving 2M+ active users.
- Expertise in Figma, component-driven design systems, and modern AI-assisted workflows (Figma AI, Cursor, Claude Code); versed in accessibility standards including WCAG 2.1, the Accessibility for Ontarians with Disabilities Act (AODA), and Voluntary Product Accessibility Template (VPAT) documentation to support regulatory compliance and inclusive design.

WORK EXPERIENCE

Unitedreams Inc.

Toronto, Canada

Product Designer (UX/UI)

09/2024 – Present

- Partnered with product managers and engineering teams in Agile environments to execute product roadmaps, translating business objectives into customer-centric digital experiences.
- Led end-to-end product design initiatives, creating comprehensive customer journey maps, service blueprints, and future-state workflows that bridged the gap between business needs and engineering, reducing front-end rework by 20%.
- Designed accessible, privacy-centric user flows aligned with WCAG 2.1 AA and the Accessibility for Ontarians with Disabilities Act (AODA), balancing strict regulatory obligations (EU data regulations, AODA) and risk mitigation with intuitive user needs to enable seamless global market entry.
- Conducted iterative usability testing and design thinking workshops, utilizing storytelling to present qualitative findings and strategic recommendations to senior leadership to drive daily active engagement.

Carrene Corp

Tehran, Iran

Product Designer (UX/UI)

05/2021 – 09/2024

- Designed and optimized interfaces for enterprise platforms scaling to over 2M+ active users, balancing complex technical requirements with intuitive UX.
- Architected a unified design system and contributed to a redesigned login process, resulting in a significant reduction in fraudulent login attempts.
- Contributed accessibility documentation, including VPAT (Voluntary Product Accessibility Template) inputs, to support enterprise procurement and compliance reviews.

SKILLS

Design: Figma (Auto Layout, Variables, Prototyping), Adobe Creative Suite (Adobe XD), End-to-End UI/UX Design, Interaction & Visual Design, Typography & Visual Hierarchy, Component-Driven Design Systems, Information Architecture

Accessibility & Compliance: WCAG 2.1 AA, Accessibility for Ontarians with Disabilities Act (AODA), Voluntary Product Accessibility Template (VPAT), Section 508, Inclusive Design Principles

Research & Process: Design Thinking Workshops, User Research, Usability Testing, Agile/Scrum, Engineering Handoff, Client & Cross-Functional Collaboration

AI & Dev Workflow: Figma AI, Figma Make, Cursor, Claude Code, Rapid Design-to-Code Execution, Motion & Interaction Prototyping for Handoff

EDUCATION

Mazandaran University of Science and Technology

Bachelor of Science, Computer Engineering

Google UX Design Professional Certificate
